

## **Declaration of Yonder Arts Party**

Wherever we humans go, we get to know something.  
And we bring back whatever we gain there to our people in this world,  
for the knowledge or intellect benefits us.

This world is not made up of humans alone.  
The reality we humans face is not in a single form.  
Neither is the reality the whole world faces.  
Lost in stark reality and pushed into the blind alley,  
we are unable to go anywhere.  
Then how can we resume our existence?

Wandering into somewhere,  
somewhere in nowhere,  
where unknowns await;  
unknowns or non-unknowns,  
we will witness their impossible and possible intellectual abilities.

Reality in this world is unreality in the world beyond.  
Unreality in this world is reality in the world beyond.  
When reality and unreality meet, the moment transforms.  
The crossing point turns to a vanishing point,  
and opens up a door to the world yonder.  
The unknowns emerge as an instant eternity.  
Here is Yonder Arts Party to weave them into bundles.

We humans can transcend ourselves only by other forms of our own,  
and so can the world by other forms of its own.

Feel the forces in somewhere in nowhere.

Everything will be all right.
